DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Hasegawa et al (U.S. 5,669,439).

Hasegawa discloses a laminated type heat exchanger having a multipass plate pair for conducting a fluid in a heat exchanger comprising all of the applicant's claimed and disclosed limitations of the instant invention.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following references are cited for disclosing related limitations of the applicant's claimed and disclosed invention. Shimoya et al (2 Patents), Hayashi et al, Ohara et al, Matsunaga et al.
